请听第5段材料,回答第19至第22小题。

What's your favorite color? If you like yellow, orange or red, you must be a person who often feels happy. If you like blue, maybe you are quiet and sometimes you feel unhappy. If you like green, you must be strong-minded. You wish to do everything well and want other people to see you are successful. Red may be exciting, and red clothes can bring warmth to you on cold winter days. According to the latest survey, scientists have found out that light and bright colors make people not only happy but active. It's a fact that factory workers work better, harder and have fewer accidents when their machines are painted orange rather than white or grey.

C)请听下面一段独白。

Hello, everyone. I am Lisa. When I was young, my mom was a dancer and was always invited to dance in different places. I visited some beautiful cities with my mom. It made me very excited so I wanted to be a dancer like her. But I was good at singing and practiced singing a lot. And now I am a famous singer and can visit different cities. But that does not make me happy because I have no spare time to do other things I like. Before I became famous, few people knew me and I had lots of time to play with my friends. But now, more strangers get to know me and I have to dress up before going out. That makes me mad and I always look back and think of my past time.

Dear Jack,

I know you're very sad now because you lost the basketball game. But whatever it was, don't be hard on yourself. As we all know, basketball is about team effort. You're not the only reason your team lost. Winning or losing is only half the game. The other half is learning how to communicate with your teammates and learning from your mistakes. I believe you will win the next game if you continue to pull together. You should think about how all of you can do better next time.

I hope you can feel better soon.

Yours,

Zhang Lin
