Hello, I'm David. I love my school. It's a small one in the countryside with only six classes. We have no sports field. After class we usually play on the grass. Our math teacher, Mr. Green, is a great teacher. We call him Uncle Green, because he is like our uncle. Our English teacher, Miss White, uses songs and stories to help us learn new words. Our PE teacher, Mr. King, loves to climb trees. Here's a photo of us. You can see Mr. King sitting in the tree. The others are standing under the tree. We are like a family.

C)请听下面一段独白。

In order to make our school life more colorful and interesting, we often have different activities. Last week, our school held a sports camp. Before we were divided into groups, we were given some information about the plans for the camp. During our time there, we could play at least six different sports. All of us felt happy and excited. In the morning, there were plenty of programs, but we could only choose a program for the afternoon activities. I chose my favorite long jump. During the sports camp we had a good time. Our class won first prize of the sports camp, and we were all very excited.

At five o'clock, the sports camp was over. We went to a shopping center where we bought drinks and snacks. Although we were all tired, we still felt very happy.

I am Jia Li. Many of my classmates discussed how to get used to the coming senior high school life yesterday. Here is the result.

In many students' opinion, we should plan our study well and try to be independent learners. What's more, it's better for us to join group discussions and exchange our ideas with our teachers and classmates. Besides, we need to take part in all kinds of activities, like the sports meet and singing competition. They can make our life colorful.

In my view, it is important for us to get on well with our classmates. So we should try to be polite to them and understand them.
