The world is not hungry, but it is thirsty. It seems strange that nearly 3/4 of the earth is covered with water while we say we are short of water. Why? Because about 97% of the water on earth is sea water which we can't drink or use directly. Man can only drink and use the 3% — the water that comes from rivers and lakes. And we can't even use all of that, because some of it has been polluted.

It's time to get together. Everyone goes home to get together with their family, though someone is far away from home. We have dinner together on that day. We must visit our relatives and friends and say "Happy New Year" to them. When the kids greet their grandparents, they can get lucky money.

To solve this problem, parents should help them. Give them some time to play computer games, but they can only play for half an hour or an hour. Parents should also encourage them to study hard and take part in more exercise.

Studying Abroad

In recent years, studying abroad has been popular with Chinese high school students. Tens of thousands of students have gone to foreign countries to study. Many more are trying their best to go abroad.

There are many advantages in studying abroad. First, when they study abroad, they can make friends with people from different cultures. Second, they can improve their foreign languages more quickly.

On the other hand, there are some disadvantages. Most of the students are too young and have no living experience, so it's difficult for them to live alone abroad. And the high cost is also a problem for common families.

I haven't heard from you for a long time. What did you do in your summer holidays this year? This summer I spent a two-week vacation in Beijing with my parents. We went there by train. With the red flag rising, the square looked very great. We also went to the famous Great Wall and the Summer Palace. We went boating on the Kun Ming Lake. The water is so blue and the trees throw their shadows in the water. So many beautiful things are still left in my memory now.

Best wishes!

How to learn English well

Some people think that if we want to learn English

well we must learn English grammar well first of all. Others believe we can't learn English well unless we keep in mind as many English words and phrases as possible.

In my opinion, grammar rules, new words and phrases are very important, but they are not enough. The best way to learn English well, I think, is to learn and use English all the time. Don't be afraid of being laughed at. We'd better do a lot of listening, speaking, reading and writing. If you can form the habit of thinking and writing in English all day, you will be good at English within a short period of time.

In our daily life, I usually see some bad behaviors around us. For example, I often hear people speak and laugh loudly in public. It is too noisy. Some people cut in line while others are waiting. For me, my parents are strict with me. They often tell me to behave well. So I never drop litter about. And I never draw on the desk or on the wall. I am polite to old people.

I think if everyone can think more of others, we'll have a better living environment.
